## **DETAILED ACTION**

### ***Reissue Applications***

1. This application is objected to under 37 CFR 1.172(a) as lacking the written consent of all assignees owning an undivided interest in the patent. The consent of the assignee must be in compliance with 37 CFR 1.172. See MPEP § 1410.01.

A proper assent of the assignee in compliance with 37 CFR 1.172 and 3.73 is required in reply to this Office action.

Assignment paper (page 5 OATH 11/13/2003 document), indicates Scot A. Starheim gave 50% ownership to T. Dann Konkin. Assignment was not given to Konkin Holdings, Inc.

However, assignment records indicate that assignment was made to Konkin Holdings Inc. The assignment needs to be cleared up, i.e., was assignment given to T. Dann Konkin or Konkin Holdings, Inc..

The assignee (e.g., an executive officer of the assignee) or a person authorized to act on behalf of the assignee (e.g., assignee's attorney), then must sign the consent.

The person signing the the 3.73(b) statement and consent also needs to type/print his name.

2. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The statement "Claims of original patent have un-necessary limitations" is insufficient. Applicant need to be more specific, i.e., the changes/amendments to the claims must be specifically identified. For example, "claim 1 contains the limitation X. Limitation X is unnecessary for patentability." See MPEP 1414.

3. The reissue oath/declaration filed with this application is defective because it fails to contain a statement that all errors which are being corrected in the reissue application up to the time of filing of the oath/declaration arose without any deceptive intention on the part of the applicant. See 37 CFR 1.175 and MPEP § 1414.

4. The amendments do not comply with 37 CFR 1.173. It must be shown where the support in the specification is for all the additions to the claims. Furthermore, amendments to col. 2, lines 17-24 and col. 6, lines 53-57 do not repeat the original paragraph accurately.

5. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

Claims 1-21 are rejected as being based upon a defective reissue oath/declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defects are set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR

1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

See MPEP § 1414.01.
